Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1,9,10,12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Josephs (USPN 4,854,460) in view of Woodruff (USPN 2,086,688).

Josephs discloses the invention substantially as claimed. Josephs discloses a rectangular, refrigerated freight container having length width and height dimensions of a standard size, a roof, a floor, walls, a door frame and two doors at one end, the doors being of the same height and extending to the floor of the container, the door having locks (130) which can only be operated from inside the container, wherein the other door has an internal door release mechanism (152) which acts from inside the container on an external door release mechanism, and wherein a security bar (200 or 132) can be locked between the two doors to prevent operation of the external door release mechanism, and wherein a part of the door frame itself forms the bottom of the container such that the frame will be in contact with the ground when the container is set down (fig. 9). However Josephs does not disclose the doors with substantially different width dimensions.

Woodruff teaches two different sized doors in the same field of endeavor for the purpose of adding versatility to the opening.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to have the doors have different sizes as taught by Woodruff in order to add versatility to the opening.

3. With respect to claim 9, both Josephs and Woodruff show a customs seal can be applied to the security bar.

4. With respect to claim 10, Josephs as applied to claim 1, shows an end face of the container has a door frame which is reinforced (50,52) to prevent skewing of the frame if it is resting on uneven ground.

5. With respect to claim 12, Josephs as applied to claim 1, shows the doors extend the full height of the container so that when both doors are opened, access to that end of the container is unobstructed to allow loading of the container (fig.1).

Response to Arguments

6. Applicant's arguments with respect to claims 1,9,10,12 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 3781

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
